MATT FLY

-Matt-
Your one of the sweetest, but craziest person I know. Your cute with that Mohawk! Hope I get to know you better the coming years. I'm glad I got a friend like you. Good Luck in whatever you do & the girls too. Always

We're getting ready for your generation.

In the years ahead you'll need more electricity than you're using right now because there's a lot to be done. Like new jobs, more efficient homemaking, health care and cleaning up the environment. Right now Texas Electric is building new lignite coal and nuclear-fueled power plants that will help make sure you have the electricity you're going to need.
